

Chamberlain Elementary, 2013-14

Outline of Incentive Program-

October 2013-Begin program

Each week on Thursday each classroom teacher nominates a student with good behavior from their class to be entered into the monthly drawing. Teachers will nominate students by sending me their name in an e-mail.

Each teacher can have their own system. A list can be kept to track and make sure all deserving students are entered into the drawing at least once per year or it could be completely random. However, the student has to be deserving of the classroom award, so they know that it takes hard work to get it.

On Fridays, we will announce all the students who have been entered into the drawing (unless the student doesn't want to be announced), so please don't announce it to your students so they listen to the whole list.

Students will come to Mrs. Audiss to get their picture taken to be featured on a bulletin board (bulletin board will be either in the link or somewhere highly visible.)

Then, either the last Friday of the Month or First Monday all students' names will be entered into a grade level drawing. One person from each grade level will have a chance of opening the treasure chest. They will need to pick a key and try it on the lock. If they open the treasure chest, they can pick an item from it. If they don't, they will get a piece of candy or a pencil.

We could keep a list to avoid the same people being chosen all the time or leave it random?

All names will be thrown away after the drawing and we will start over each month.

A student's name can be taken out of the drawing for bad behavior after the initial award has been given.

We can explain to the parents with a letter.
